

```
class MySqlConnection /copyable and assignable/ {  
    public:  
        MySqlConnection() (constructor)  
    private:  
        void* handler  
}
```

Intentions

-  Add Documentation ▶
-  Attach Name ▶
-  Create Getter and Setter ▶
-  Make Protected ▶
-  Make Public ▶
-  **Rename Field Conventionally** ▶
